Languages

Italian	Madrelingua
English	C1

Soft skills

- Accessibility-driven mindset
- Translating accessibility standards into practice
- Cross-functional collaboration
- Problem-solving in complex systems

Adwards

- "*Learning Accessibile*" Award – Interdisciplinary Mention for *GraficiAccessibili* (Olimpyus)
- Best Students I Year in Computer Science - University of Calabria (2019)
- Best Students II Year in Computer Science - University of Calabria (2020)

Selected Publications

- IEEE Access (2024) - Accessible Mathematics: Representation of Functions Through Sound and Touch
- ACM GoodIT (2025) — Toward Fully Accessible Digital Events: Guidelines, Platform Design, and PPTX-to-HTML Conversion
- ACM SAC (2025) — Supporting Accessibility Auditing and HTML Validation using LLMs

Salvatore Gatto

Accessibility Researcher | PhD Candidate in Brain, Mind and Computer Science

Work experience

11/2025 - PRESENT | UNIVERSITY OF PADUA

PhD Candidate, Brain, Mind and Computer Science

- PhD research project based on the "Accessibility by Design" initiative, investigating how to integrate accessibility into both software development workflows and digital content.
- Designing *SviluppAbile*, an LLM-assisted accessibility tool for auditing and generating accessible web content grounded in WCAG 2.2.
- Investigating web-based multisensory access to STEM content through sonification and accessible interaction design.

06/2024 - 10/2025 | UNIVERSITY OF PADUA

Research Fellow - Industry Collaboration

- Developed accessibility guidelines for web content and digital events, aligned with accessibility best practices and WCAG guidelines, with *Primo Round,* company partner.
- Designed and contributed a web-based tool enabling accessible access to presentation content beyond traditional screen sharing.

01/2024 - 05/2024 | UNIVERSITY OF PADUA

Research Fellow

- Developed *GraficiAccessibili:* mobile application, designed to support people with visual impairments in exploring mathematical functions.
- Worked on multimodal interaction techniques combining sonification and haptic feedback for accessible STEM learning.

Education

11/2025 - 10/2028 | UNIVERSITY OF PADUA

PhD in Brain, Mind and Computer Science

10/2021 - 12/2023 | UNIVERSITY OF PADUA

MSc in Computer Science

09/2018 - 07/2021 | UNIVERSITY OF CALABRIA

BSc in Computer Science

Hard skills

Programming & Development

- Python, C++, Java, JavaScript, HTML, CSS

Web & Accessibility

- WCAG 2.2, WAI-ARIA, Accessibility Auditing
- Assistive Technologies: VoiceOver, TalkBack, NVDA
- Tools: Total Validator Pro, Web Accessibility Checker

Mobile Development

- Unity (cross-platform development for mobile applications)
- Mobile deployment and accessibility testing (Android, iOS/iPadOS)

Extra Activities

- Jury Member for *AccattivanteAccessibile* IV & V edition (University of Padua, industry collaboration) - Evaluation of websites for WCAG compliance
